### DETAILED ACTION

1. This action is in response to the office action filed on June 24<sup>th</sup>, 2003.

#### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1 and 5 are rejected under 35 U.S.C. 102(e) as being anticipated by Holzle et al. (U.S. Patent Number 6,209,066).

For specific rejections of Claims 1 and 5, see the office action filed on March 26<sup>th</sup>, 2003 (Note: Claims 1 and 5 have been amended to overcome certain 112 2<sup>nd</sup> paragraph rejections, and the scope of the claim is unaffected from these amendments).

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 2-4 and 6-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over “C: The Complete Reference, Third Edition”, by Herbert Schildt, 1995 (hereinafter Schildt) in view of Holzle et al. (U.S. Patent Number 6,209,066).

For specific rejections of Claims 2-4 and 6-8, see the office action filed on March 26<sup>th</sup>, 2003 (Note: Claims 2-4 and 6-8 have been amended to overcome certain 112 2<sup>nd</sup> paragraph rejections, and the scope of the claim is unaffected from these amendments).

***Response to Arguments***

6. Applicant's arguments filed on June 24<sup>th</sup>, 2003 have been fully considered but they are not persuasive.

Specifically, applicant states that the Holzle reference teaches a multi-threaded computer system that partitions shared memory into a plurality of blocks, and groups multiple threads into groups. Applicant further claims that the reference does not disclose the use of an interface area that is dynamically located for each thread for each thread in parallel processing. However, Holzle does disclose a dynamically allocated interface area (Column 7, lines 32-36) for each thread of a multi-threaded system. Since the system is multi-threaded, the threads can run in parallel. According to “Microsoft Computer Dictionary: Fifth Edition” the definition of

Art Unit: 2122

“multithreaded application” is “a program capable of running more than on program thread simultaneously”, hence in parallel.

### ***Conclusion***

**7. THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
